(3 AA batteries - not included)

Earpiece safely stores away when unit folds shut

Item #748

Internal heating element provides temperature-controlled, warm, soothing air

Custom fan and motor generate safe, comfortable, pressure-regulated airflow

Texturized shell for gripping in wet environments

Includes 4 color-coded, washable earpieces for better hygiene between multiple users

Dry your ears the safe, natural way with a gentle flow of warm soothing air

- Invented by an ENT doctor to safely and effectively dry the ear canal where bacteria and fungi can grow
- Dries the ear canal in about one minute
- Provides controlled maximum temperature, airflow, cycle time and noise volume
- Eliminates the need for ear drying drops and unsafe cotton swabs
- Easy, effective and comfortable for all ages
- Doctor recommended for use after swimming, bathing, water sports, hearing aid use, scuba, etc.
