

A Better Solution for Earwax Problems

Unique Tri-Stream Rinse Tip

- Flared design reduces risk of over insertion
- Directs water against ear canal wall, virtually eliminating risk of eardrum perforation
- Prohibits pressure buildup during rinse action

Special Steady-Flow Syringe

- Provides control of rinse-flow rate
- Works with Tri-Stream Rinse Tip
- Easy-to-use

Complete System Includes

- FDA Approved Carbamide Peroxide Drops
- AquaBlock® Earplugs (to hold drops in ears, allowing user to move about while treatment is underway)
- Steady-Flow Syringe and Rinse Tip
- Ear Wash Rinse Tub

The most
advanced, complete
earwax removal system
